

SPL3 Mid Presentation

Marking Rubric

Assessment Component	Weight
Technical Document	10%
Presentation	10%
Implementation Progress & Project Demonstration	10%
Total	30%

Technical Document (10%)

Criteria	Marks	Expected
Project Overview	1	Problem, objectives, scope and deliverables are clear and well-defined
Requirements Analysis	2	Functional and non-functional requirements are comprehensive and well justified
Design diagrams	5	Appropriate diagrams are correct and consistent
Test Plan & Timeline	1	Testing strategy and Gantt chart are realistic and
Report Organization & Professionalism	1	Well-structured, concise, properly formatted with minimal language errors

Presentation (10)

Criteria	Marks	Expected
Problem Understanding	2	Clearly explains the problem and project
Technical Content	2	Explains architecture, methodology and design decisions confidently
Communication Skills	2	Clear, confident, well-paced, professional
Visual Quality	2	Slides are professional, organized and readable
Response to Questions	2	Answers questions accurately with strong technical understanding

Implementation Progress & Project Demonstration (10)

Criteria	Marks	Expected
Working Prototype	3	Functional prototype with multiple implemented features demonstrating core workflow
Progress Against Plan	2	Some of planned modules completed
Implementation Quality	2	Implementation is organized and modular
Demonstration of Implemented Features	2	Demonstrates completed features smoothly with realistic examples
Challenges & Future Plan	1	Clearly explains challenges, solutions and remaining work with a realistic completion plan
